

University of British Columbia Medical Journal

PATIENT CONSENT FOR PUBLICATION

This form is not to be returned to the UBC MJ, but must be retained by the authors for a period of five years, with the use of appropriate safeguards to ensure confidentiality, and must be produced to UBC MJ upon its request.

Article Title:

Authors (names):

Patient(s): I consent to allow images or clinical details of my case to be reported in the University of British Columbia Medical Journal (UBCMJ).

By signing this form, I acknowledge the following:

- I have been given an adequate opportunity to review this article.
- I will not be identified by my real name at any point in the publication process, but there is a possibility that images or descriptions provided in this article will be recognized by a person with knowledge of my condition.
- I recognize that the UBC MJ will publish this work in print and in a digital format that will be freely accessible on the internet.
- I have the right to refuse the publication of this article.
- By signing this form, I am choosing to waive my right to refuse publication of this article.
- This consent form will be retained by my care provider.
